- Sprayed Urethane
- Poured Poly-Urea Edge

Flat Panel Processing has been a key part of who **Hamilton Manufacturing Services (HMS)** is. Our experience in lamination spans almost 100 years and we seek to bring that experience to every one of our customers.

Our distinct advantage is that we are a single solution provider. Everyday **HMS** laminates any of the thousands of available laminate colors to a large array of substrates, and then shapes and edges those pieces to meet our customer's needs. **HMS** can be a one stop shop for your laminated panel needs.

We invite you to see for yourself, let us help on your next project and show you how we can be your go to lamination and panel processing partner.

## Other Services:

- ENGINEERING AND DESIGN SERVICES
- METAL CUTTING
- METAL FORMING
- WELDING
- POWDER COATING
- CONTRACT SEWING
